IN THE SPECIFICATION

Please amend paragraph [29]:

Various inserts 20, 22 may be embedded in the back-foamed layer 18. In the illustrated example, the inserts include a hose-like hollow body ~~20~~ along a raised section 24, and attachment elements having threaded bolts protruding from back-foamed layer 18 along an edge section 26. Of course, other inserts may be incorporated without departing from the scope of the invention.
